At **Hunters Hill Private** we'll help you get on your feet again

Osteoarthritis Management Program

Does osteoarthritis stop you from doing the things you love?

Does arthritis keep you awake at night?

Do you wish to delay hip or knee surgery?

Our individually tailored Day Program includes:

- Physiotherapy
- Hydrotherapy
- Occupational therapy
- Dietetics
- Rheumatology assessment

The program will educate, equip and empower patients to manage everyday activities and improve quality of life.

Parkinson's Reconditioning Program

Evidence is increasing to support the effectiveness of well coordinated multidisciplinary therapies. These therapies aim to improve cardiovascular fitness, reduce the risk of falls, prolong independent function and improve quality of life.

Our clinicians bring a comprehensive multidisciplinary program. We offer a tailored reconditioning program for people with Parkinson's Disease. You will play an important role in setting your goals with our clinicians and your progress will be reviewed regularly through case conferences.

Our individually tailored Day Program includes:

- Physiotherapy
- Speech Therapy
- Social Work
- Occupational therapy
- Dietetics
- Rehabilitation Physician assessment

The program involves face to face consultations and group classes for up to 10 weeks and your whole program will be scheduled by our Day Program Coordinator.

Programs are covered by private health funds, dependant on fund and level of cover. Self funded options are available. Enquire today.
